

## **NOTICE TO PROPERTY OWNERS – SNOW CLEARING**

Ratepayers are reminded that any snow clearing on private property cannot involve pushing the snow onto the roadways, municipal property, ditches or road allowances. This creates unsafe situations where property owners are pushing snow into the right of way, resulting in drifting and the creation of hard packed banks. Windy conditions will cause snow to drift onto the roadway. Snow drifts cause difficulty for travellers and potentially dangerous situations if drifts become hard packed.

Municipal equipment plows at high speed and the operator cannot always see snow packed onto the road especially if wind has covered the purchased pile with a new drift.

Violators shall be liable for the cost incurred by the Municipality to relocate snow piled on the roadway or within the road allowance, including within the ditch. Current custom work rates shall apply.
