RM of Dufferin #190 – Rural Bulk Farm Bin Collection Program

The RM of Dufferin #190 has entered into an agreement with Loraas Disposal South for an **optional** rural waste collection program. By doing so we have been able to secure the lowest rate possible to provide our ratepayers with cost effective options for personalized garbage disposal service. This program will allow the ratepayers to select the bin of their choice that will best fit their needs and budget.

In this program, containers would be delivered to the ratepayers location and serviced on site to the selected service level. Enclosed containers in conjunction with a proper service schedule ensure that waste does not smell for extended periods of time which helps reduce unwanted pests & wildlife, litter and the need for burning.

If a ratepayer does not generate enough waste to utilize a bin on their own they may share the service with another person thus reducing the overall cost. ***Please note that only one person will be required to sign up and will be invoiced by the RM.** Any split costs are to be handled at the individual's discretion.

As this is an **optional** program, ratepayers that wish to participate will be required to sign up directly with the RM of Dufferin #190. To sign up for the garbage service, simply fill out the registration form and return it to the RM office via email, fax, mail or in person. Registration forms are available at the RM office or RM website. Forms will be collected from August 2 to October 3. The delivery of bins will commence after October 4.

***Note* - Existing Bins**

Loraas - If you already have an existing Loraas account and bin on your site, please register with the RM and the account will be switched over for you in order for you to receive the reduced rate. Loraas will invoice the RM of Dufferin, who in turn will invoice the ratepayer. If you have an existing bin with a different service provider please contact the RM office for further options.
